

## Alien Skin Software Announces Cloud Compatibility for Eye Candy 7 Graphic Design Effects Plug-In

*Free update enables cloud storage for easy synchronization between multiple machines and adds compatibility with Adobe® Photoshop Creative Cloud™*

Raleigh, NC (July 9, 2013) - [Alien Skin Software](http://www.alienskin.com) today announces the immediate availability of a significant update to its Eye Candy® 7 graphic design effects plug-in. The update adds the capability to store presets in a cloud storage folder so that they can be synchronized between multiple computers. It also adds compatibility with the new Adobe® Photoshop Creative Cloud™.

“Graphic designers who rely on Eye Candy 7 will appreciate the ability to store special effect presets in the cloud,” said Terence Tay, the designer of Eye Candy. “It’s convenient to develop a customized effect on one computer and have access to it anywhere.”

Cloud preset sharing is available to all users of Eye Candy 7, not just users of Photoshop CC. It works with multiple cloud storage services, including Dropbox™.

Alien Skin’s Eye Candy 7 plug-in renders realistic effects that are difficult or impossible to achieve in Photoshop alone, such as the appearance of Fire, Chrome, and Lightning. Realism sets Eye Candy effects apart from the generic filters built into Photoshop. Effects like Animal Fur, Smoke, and Reptile Skin are rendered in exquisite detail down to individual hairs, turbulent wisps, and shiny scales.

### Pricing and Availability

Current owners of Eye Candy 7 can download the update for free. Eye Candy 7 is available through [www.alienskin.com](http://www.alienskin.com) for \$199 USD. Owners of any previous version of Eye Candy may upgrade for \$99 USD.

### Host Requirements

Eye Candy 7 is a plug-in and requires one of the following host applications:

- Adobe Photoshop CS5, CS6 or CC
- Adobe Photoshop Elements 10 or newer

### System Requirements

Microsoft Windows users need Windows 7 or later.  
Apple Macintosh users need Mac OS X 10.7 or later.  
An Intel Core 2 processor or compatible is required.

A monitor with 1280x768 resolution or greater is required.
